Customer/Partner Service Surveys (OMB Control No. 0910-0360)—Extension

responsibilities of the agency. Executive Order 12862, entitled “Setting Customer Service Standards,” directs Federal agencies that “provide significant services directly to the public” to “survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services.” FDA is seeking OMB clearance to conduct a series of surveys to implement Executive Order 12862. Participation in the surveys is voluntary. This request covers customer/partner service surveys of regulated entities, such as: Food processors; cosmetic, drug, biologic and medical device manufacturers; consumers; and health professionals. The request also covers “partner” (State and local governments) customer service surveys. FDA will use the information from these surveys to identify strengths and weaknesses in service to customers/partners and to make improvements. The surveys will measure timeliness, appropriateness and accuracy of information, courtesy, and problem resolution in the context of individual programs. FDA projects 25 customer/partner service surveys per year, with a sample of between 50 and 6,000 customers each, requiring an average of 18 minutes for review/completion per survey. Some of these surveys will be repeats of earlier surveys, for purposes of monitoring customer/ partner service and developing long-term data.

In the **Federal Register** of July 25, 2001 (66 FR 38711), FDA published a 60-day notice requesting public comment on the information collection provisions. No comments were received.

FDA estimates the burden of this collection of information as follows:
